SUMMARY

A passionate web developer with a love for crafting seamless user experiences. My expertise in front-end and back-end development enables me to create modern and efficient web applications. I thrive on challenges and enjoy collaborating with diverse teams to bring innovative projects to life. Let's connect and explore how I can contribute to your next web development endeavour.

WORK EXPERIENCE

Neema Yaoundé - Cameroon

Web developer & Custom Software Developer

November 2022- Present

Key Responsibilities

- ✓ Building the user interface and user experience (UI/UX) elements that users interact with directly using frameworks and libraries like ReactJS, NextJS.
- ✓ Creating server-side applications, databases, and APIs to support the functionality of the website or application
- ✓ Actively collaborated within the team to resolve new concerns about the new released software
- ✓ Translating web designs and mock-ups into functional websites or applications.
- ✓ Implementing security measures to protect the website or application from potential threats and vulnerabilities.
- ✓ Deploying the website or application to a production server and providing ongoing maintenance and support as needed.

ZUOIX COMPANY LTD Limbe - Cameroon
